Company information

WiseEnergy Italia Srl is the leading asset management and technical advisory operator for renewable energy plants, an international leader in the outsourced management of large systems. The company's goal is to be the sole interlocutor for the photovoltaic sector investors do not have their own operational structures, technical and managerial teams. WiseEnergy Italia Srl is able to integrate all the skills and services needed for comprehensive management of photovoltaic systems, optimizing all operational and administrative aspects. The services and expertise of the team WiseEnergy Italia Srl cover the entire plant life cycle: from development (site identification to the planning, approval, technology selection and suppliers, EPC / O & M contractors, negotiation of bankable contracts), financing (equity, debt, leasing), in construction (site management, advances, verification of manufacturability, flow optimization, acceptance, payments etc.). Additionally, through many partnerships, the company has built stable relationships with the world's best specific player thus bringing to its customers the most favorable conditions for their plants as facilitated technology supplies, framework agreements with EPC and O & M, dealing with banks for financing debt, insurance companies or providers of ancillary services. WiseEnergy Italia Srl was founded in 2008 by Next Energy Capital, a leading investment bank focused on the renewable energy sector in Europe. WiseEnergy Italia Srl operates on the international market through its offices in Milan, Rome, London, and manages to date a portfolio of 1.8 GW of plants across Europe.
